

Design sink in travertine “Cave”

Project by [Niccolò Raffaelli](#).

The designer created this travertine sink for us; its uniqueness lies in having two storage compartments for textiles or personal hygiene and care products, carved directly into the stone.

The refined design features soft lines that emphasize the light tones of the natural stone.

Designed to be wall-mounted, it can also be installed as a countertop.

- The drain hole is standard size.

NB: Drain not included in the price.

Dimensions

120 × 80 × 40 cm

Weight

100 kg
