

Cross-cut travertine “Concrete”

Concrete is a selection of gray travertine with a unique tone and color.

The cloudiness of this selection resembles the color of industrial **cement**.

The background is uniformed in shades of **gray**, with some tones of brown.

Perfect for both floor and walls, this selection of travertine is excellent for outdoor environments as well.

- Easy to clean
- It has a good shade uniformity

Consult the technical information to see the various possible combinations of formats and surface finishes that are available.
