

Cross-cut travertine “Ice”

ICE travertine has **ice grey veins and spotting**, of on average uniform colour, and light **tone-on-tone clouding**.

It comes with the characteristic **antiqued Ciottolo finish** that is obtained by passing it through tumblers, and is ideal for rustic interiors or exteriors given that it is less slippery.

Rich and intense, this selection is perfect for creating splendid washbasins and for special pairings.

- Easy to clean
- It exhibits color variations and veining

Consult the technical information to see the various possible combinations of formats and surface finishes that are available.
