

Care and Maintenance Kit: The Beauty of Stone, Preserved Over Time

The **Pietre di Rapolano Care and Maintenance Kit** is the complete professional solution specifically designed for those who wish to keep the splendor of their natural stone, marble, or travertine washbasin intact.

We know that stone is a living material: for this reason, we have selected the essential products to protect and clean it daily without damaging the surface. Everything you need is enclosed in a practical, compact case.

What you will find in the Kit:

The kit consists of 4 fundamental elements for an impeccable maintenance protocol:

1. **C1.07 DAY - Neutral Spray Detergent (100 ml):** Your daily ally. A ready-

to-use pH-neutral detergent that cleans gently, removing dirt without affecting natural finishes or existing protective treatments. It leaves the surface clean and scented.

2. **T3.02 - Water-Repellent Protective Shield (100 ml):** A highly effective solvent-based treatment. It penetrates the microporosity of the stone, creating an invisible barrier against water and humidity. It prevents stain formation and facilitates cleaning without altering the natural color of the stone.
3. **Professional Microfiber Cloth:** Grey, soft, and highly absorbent. Ideal for applying products and drying surfaces without leaving streaks or scratches.
4. **Non-Scratch Sponge:** Specifically selected to act effectively on stubborn stains without damaging the natural luster of marble or travertine.

Dimensions

25 × 21 × 6 cm

Weight

1 kg
