

Primo Splendore Kit: The Complete Professional Treatment

The **Primo Splendore Kit** by Pietre di Rapolano is the ultimate professional system for those needing to perform the initial treatment or deep restoration of natural stone, travertine, or marble floors and wall coverings.

This kit has been configured to offer a “turnkey” solution capable of covering a surface area of approximately **10/15 sqm**, ensuring invisible yet extremely durable protection against stains and wear over time.

Kit Contents:

The professional black case contains everything needed for an impeccable result:

1. **C1.08 - Degreasing Detergent (1 Liter):** A highly effective concentrated alkaline detergent. It is essential for “post-construction” cleaning or for deep

degreasing of very dirty surfaces before protective treatment. It removes organic residues, waxes, and stubborn dirt without damaging the stone's structure.

2. **T3.31H - Eco-friendly Impregnating Stain Protector (1 Liter):** A cutting-edge solvent-free protector, ideal for raw or natural surfaces. It penetrates deeply, ensuring a total barrier against liquids, oils, and greases without altering the stone's original aesthetic appearance. Being water-based, it is safe for the user and the environment.
3. **C1.07 DAY - Neutral Spray Detergent (100 ml):** Your daily ally. A ready-to-use pH-neutral detergent that cleans gently, removing dirt without affecting natural finishes or existing protective treatments. It leaves the surface clean and scented.
4. **Professional Microfiber Cloth:** Specifically designed for the even application of products and the removal of any excess, ensuring a streak-free finish.
5. **Technical Sponge:** Ideal for localized application or for mechanical action with C1.08 detergent on areas requiring greater cleaning power.

Dimensions

34 × 28 × 9 cm

Weight

4 kg
