

Large Marble Sink “Eye Zecevo”

Zecevo is a marble characterized by a uniform light beige tone, marked by dark, sharp, precise veins. These veins deeply mark the block and are evident in the sink's three-dimensionality.

This specific sink has an oval shape and is large in size.

With Zecevo marble, we can create floors, coverings, shower trays, and any other finishing elements necessary to make your bathroom unique.

- The faucet can be installed either on the countertop or on the wall.
