

Marble bathtub “Regal”

Marble has always been used to create imposing architectural pieces. The ancient Romans used it to ornament their villas and houses with white marble bathtubs.

The “Regal” **bathtub** combines tradition and modernity. Its **design** is inspired by the **neo-classic** ornamental bathtubs, but in a more minimal revisitation.

It can be made, upon request, in both white marble and in other materials such as light or dark travertine or Emperador marble. The choice is yours. Its **rounded shapes** make it perfect for both prestigious and classical environments.
