

“Verde Guatemala” Marble

Verde Guatemala Marble is a natural stone with an undeniable personality, capable of transforming any setting into a luxurious and inviting space. Characterized by an intense green color reminiscent of tropical forests, this marble features white or light gold veining that creates an effect of movement and depth.

Historically used for centuries in grand architecture and pre-Columbian ornamental art, Verde Guatemala has adorned palaces, monuments, and sculptures thanks to its exceptional hardness and ability to maintain an almost perfect polish over time.

Today, it represents the perfect balance between tradition and modernity: no two Verde Guatemala slabs are ever the same, offering every project a unique work of art from nature.

- Easy to clean.
- Features a white background with purple veins
