

Dark Veined Travertine Slab

The selection of **Dark Veined** Travertine represents a color choice extracted from the quarry with a beige base, selecting veined and stained pieces, predominantly with a **dark background**. Along with **Light Earth** (PDR013), it is one of the most typical colors of Rapolano Stone.

The clouds and veins that characterize this selection of travertine, along with the hardness of the material, make it particularly suitable and appreciated for installation as exterior cladding.

- Easy to clean.
- Features color variations and veins
