

Travertine mosaic “5.0×10.0 Light Blend” Split

Wall mosaic in **classic travertine** with **natural split**. The rectangular strips, 5 x 10 cm, are created by splitting the stone along the sedimentation line in order to obtain a variable surface.

Playing with furnishings we can obtain a rustic or modern environment, especially with the surfaces and finishes of the other materials used in combination with this mosaic.

Decorate the walls of the sitting room with a **rough looking** stone for a natural effect.

- Each box of mosaics includes 5 sheets equal to 0.46 m²
