Travertine mosaic “5.0×10.0 Light Blend” Split

Mosaic for cladding in **classic travertine** with **natural split**. The rectangular strips, measuring 5 x 10 cm, are created by splitting the stone along the sedimentation plane to achieve a varied surface.

Playing with the decor can create both rustic and modern environments, especially with the surfaces and finishes of other materials used in combination with this mosaic: decorate the living room walls with a stone that has a **raw look** for a natural effect.

- Each box of this mosaic contains 5 sheets equal to 0.46 m²
