

Travertine mosaic “5.0×10.0 Multicolor” Split

For this **travertine mosaic** we have chosen a blend of beige, yellow, and brown shades. The tiles are cut into 5 x 10 cm stripes with a “Spacco” finish, ideal for **decorative walls**.

Travertine is a sedimentary rock that is formed by stratification. The “”Spacco”” **finish** is **obtained by cracking the stone** with special presses, along the natural sedimentation line.

- Each box of mosaics includes 5 sheets equal to 0.46 m²

Dimensions

4,8 × 10,0 × 2,5 cm

Weight

22 kg

Format

Sheet 30.5×30.5×2.5cm
