

Travertine Mosaic “Muretto Tuscany Mix” Pebble

Pebble is an aged natural stone mosaic made with a **blend of strips** of travertine in various lengths, with a width of 15 mm.

The strips are first **tumbled** to give them the “Pebble” finish, and then assembled on a special mesh to provide them in sheets that interlock with each other, making installation easier.

The warm colors and **aged finish** make this mosaic particularly suitable for covering bathrooms, showers, kitchens, and much more: unleash your creativity on how and where to apply it, or contact us directly for further advice.
