

Travertine shower base “Doghe”

We designed the “Doghe” **shower base with a solid perimeter frame** that outlines the shower base itself and two different varieties of slats: in travertine or solid wood.

The slats are showed to create slots that hide the drain and through which the water flows.

They can be easily lifted and removed to facilitate cleaning the drain, which is hidden but easily inspected.

Dimensions

91,4 × 91,4 × 8 cm

Weight

125 kg
