

“Village” travertine sink

Travertine kitchen sink with rounded rectangular basin and **smooth drainer**, a contemporary reinterpretation of the classic stone sink: the shapes are more linear and decorative elements are absent.

The wide rim can be left exposed or used as a support element, by installing the **recessed sink** in a marble countertop.

- The faucet must be installed on the pre-drilled hole.
- The drain hole is standard size.
- Easy to clean.

Note: Faucet and drain are not included in the price.

Dimensions

130 × 60 × 40 cm

Weight

95 kg
