Calacatta Marble

Calacatta Marble has a white/ ivory background, with veining that runs in an oblique direction characterized by grays of different shades that mixes along with the intense beige veins.

The detail of the veining makes it a very valuable marble.

This marble can also be used to make sinks and other special products.

- Easy to clean
- This selection has a ivory background with beige veining

Consult the technical information to see the various possible combinations of formats and surface finishes that are available.
